### Eco Pause for Thought

*A recent survey revealed over a quarter of us overfill the kettle when we're boiling a cuppa. As well as wasting your time waiting for a brew, it wastes energy and CO2: the Energy Saving Trust reckons we could power the nation's street lamps if we all just boiled the right amount.*

*Next time you make a cuppa, take care to only put in as much water as you need to fill your teacup.*
